

Student Based Planning Team Agenda  
12/20/07

- Goals Activity
- At Risk Survey
- PTSA
- Edgar Co.

Goals Activity

- “We’re improving our mental and physical health at School Without Walls.” This was a quote of the day. Everyone at the meeting had a discussion to determine if School Without Walls actually is improving in these aspects.

At Risk Survey

- Ellen Asprooth is a concerned parent at School Without Walls who put together a number of figures, based on a survey done yearly by the students on drugs, violence and safety, to show us the percentages of things that kids are involved in that are hazardous to their lives. WE had a panel discussion on these figures.

PTSA

- Dave Caiazza’s Extended Class, The City as My School, did a presentation for the last PTSA meeting on what their extended class is, and has been doing for this year.
- PTSA plans to have more extended classes present at future meetings
- Next meeting is possibly scheduled for January 16, 2008

Edgar Co.

- Edgart Brown is a student here at School Without Walls, who came to present to the staff some of the issues that current students are having with snow ball fighting, Negative teachers, writing journals, and much more.
